Key Performance Metrics

Subscription ARR is a key business metric that refers to the annualized recurring contract value of all active, non-cancelable customer subscription agreements with subscription terms of any length at the end of the quarter, plus on-demand billings for the quarter multiplied by four.

Total Contract Value (TCV) Sales, or bookings, of Everpure's Evergreen//One and similar consumption- and subscription-based offerings is an operating metric, representing the value of orders received during the period.

Non-GAAP Financial Measures

To supplement our unaudited condensed consolidated financial statements, which are prepared and presented in accordance with GAAP, Everpure uses the following non-GAAP financial measures: non-GAAP gross profit, non-GAAP

gross margin, non-GAAP operating income (loss), non-GAAP operating margin, non-GAAP net income (loss), non-GAAP net income (loss) per share, and free cash flow.

We use these non-GAAP financial measures for financial and operational decision-making and as a means to evaluate period-to-period comparisons. Our management believes that these non-GAAP financial measures provide meaningful supplemental information regarding our performance and liquidity by excluding certain expenses such as stock-based compensation expense, payroll tax expense related to stock-based activities, amortization of debt issuance costs related to debt, amortization of acquired intangible assets, restructuring costs related to severance and termination benefits, acquisition related transaction expenses and gains from mark-to-market adjustments on strategic investments that may not be indicative of our ongoing core business operating results. Everpure believes that both management and investors benefit from referring to these non-GAAP financial measures in assessing our performance and when analyzing historical performance and liquidity and planning, forecasting, and analyzing future periods. The presentation of these non-GAAP financial measures is not meant to be considered in isolation or as a substitute for our financial results prepared in accordance with GAAP, and our non-GAAP measures may be different from non-GAAP measures used by other companies.

For a reconciliation of these non-GAAP financial measures to GAAP measures, please see the tables captioned "Reconciliations of non-GAAP results of operations to the nearest comparable GAAP measures" and "Reconciliation from net cash provided by operating activities to free cash flow," included at the end of this release.
